The Sylvie Ratelle STD/HIV Prevention Training Center of New England is committed to training clinicians from New England in the diagnosis, treatment and management of sexually transmitted disease and the prevention of Human Immunodeficiency Virus (HIV). Because of the intensity of the training, with close one-to-one preceptorship, we can only offer this training to a limited number of clinicians. Participation includes the examination and treatment of patients, so some independent clinical practice is assumed. **Selection criteria is based on the ability to use training in daily practice and geographic diversity.** To help us in this process, please fill out the following questions as completely as possible:

- 1) On average, how many STD 'at risk' patients do you examine in one day? \_\_\_\_\_
- 2) Of this total number, what percentage is female? \_\_\_\_\_%
- 3) What percentage of your work time is devoted to treating patients with an STD? \_\_\_\_\_%
- 4) What percentage of your work time is devoted to family planning services? \_\_\_\_\_%
- 5) How many times a month do you diagnose: HPV \_\_\_\_\_ Herpes \_\_\_\_\_ Vaginitis \_\_\_\_\_  
PID \_\_\_\_\_ Urethritis \_\_\_\_\_ Genital Ulcer Disease \_\_\_\_\_ Chlamydia \_\_\_\_\_ Gonorrhea \_\_\_\_\_

Is there anything that you would like to tell us about your practice? \_\_\_\_\_

Please mail your completed application to:
